1 Device on/off

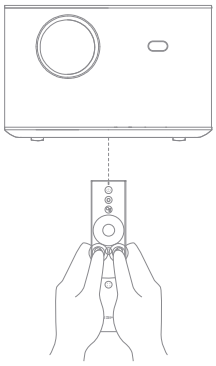
Connect to the power source, and press the "⊙" button to turn on the device.

When the device is on, press the "⊙" button to turn off the device.

2 Remote control pairing

Place the remote control within 10 cm of the device, press "⮌" and "⌂" simultaneously until an indicator light begins flashing. This means that the remote control enters the pairing mode. When a "Ding" is heard, the connection is successful.

If the pairing fails, it will exit after 30 seconds. Repeat the above steps after exiting.



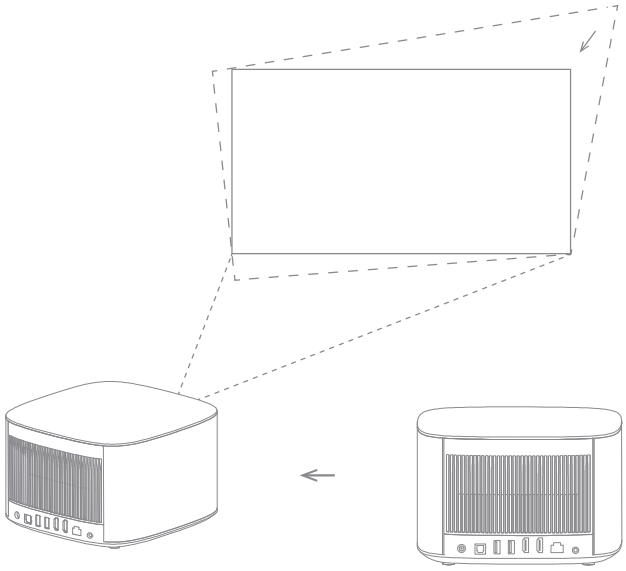
3 Automatic focus adjustment/Remote focus adjustment

When the automatic focus adjustment function is enabled, the frame will be adjusted automatically when you turn on the device or move it to another location.

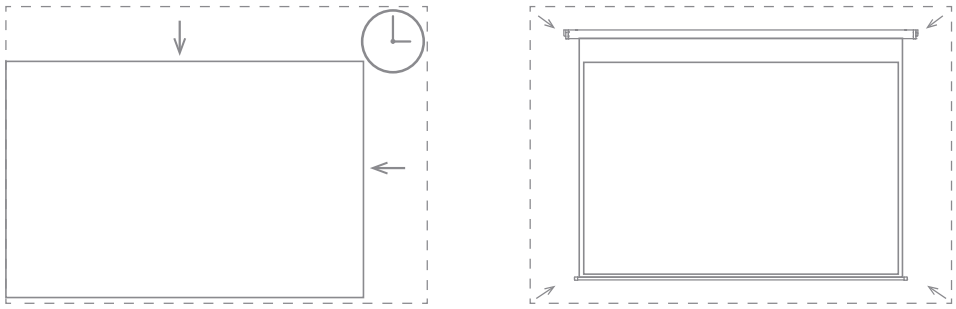
Enable automatic focus by pressing "⊡" After holding on to the "⊡" button to enable manual focus adjustment, you can manually adjust the focus by pressing the "left/right" button or the "VOL+/-" button. After the adjustment, you can press other buttons to exit.

4 Automatic keystone correction

When the automatic keystone correction function is enabled, the frame will be adjusted automatically if you move the device to another location.



When the automatic obstacle avoidance function is enabled, the frame will automatically avoid obstacles if there are obstacles in the projection area. When the automatic screen alignment function is enabled, the frame will automatically match the screen if there is a 16:9 or 16:10 screen in the projection area.



Press the "⬡" button on the remote control to enter the "Keystone Correction" page. Select "Auto Keystone Correction" to enable the automatic keystone correction function. Select "Manual Keystone Correction" to adjust the four points and the size of the frame.

5 Google Assistant

Talk to Google to control your TV using your voice.

Press the Google Assistant button on your remote to search for movies and shows, get recommendations to match your mood, get answers, control smart home devices, and more.

6 Bluetooth speaker

Use mobile Bluetooth settings to search for "XGIMI HORIZON PRO" or "XGIMI HORIZON" to pair with the device and play songs.

If you need to turn off the projection frame during music playback, you can press the "Power" button and select "Display Off" .

7 More settings

At any interface, you can press the "⚙" button on the remote control to quickly set your device. To configure more settings, go to the "All Settings" page.

The main settings are described as follows:

- Brightness and color

  Select a brightness mode, such as standard, bright, eye-protection, and adjust the brightness level.
  If the "Environmental Adaptation" function is enabled, the device can automatically adjust the brightness based on the ambient brightness.

- Image mode

  Select different image modes in different scenarios, such as movie, football, office, and game, to adjust the image parameters of the video or signal source. The low-latency option is available in game mode.

- Sound effect

  Select different sound effects in different scenarios, such as movie, music, and sport, to enjoy the optimal sound experience.

- Focus calibration

  If the automatic focus adjustment function is not as good as before after long-term use, you can tune the automatic focus adjustment function through "Focus Calibration".

  Note: When calibrating, make sure that the device is in the front projection state and that it is 1 to 2 meters away from the wall or screen.

- Keystone calibration

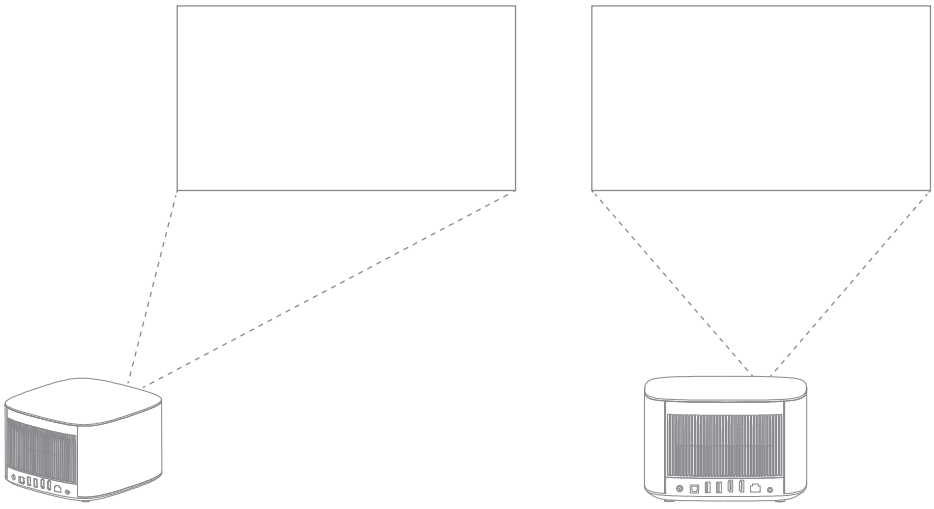
  If you are not satisfied with the effect of the automatic keystone correction function, you can recalibrate the automatic keystone correction function through "Keystone Calibration".

  Note: When calibrating, make sure that the device is in the front projection state and that it is 1 to 2 meters away from the wall or screen.

- Gyro calibration

  If the automatic keystone correction function is not as good as before after long-term use, you can recalibrate the gyro through "Gyro Calibration" to optimize the effect of automatic keystone correction.

  Note: Make sure that the device is placed horizontally during calibration.



Side projection

Use front projection during calibration

8 Online upgrade

Check the latest version and upgrade the system through "Settings" -> "Device Preferences" -> "About" -> "System Update".

9 Chromecast Built-in™

Chromecast built-in

Easily cast your favorite movies, music, and more to your TV with Chromecast built-in.

Simply tap the Cast button from apps you already know and love to stream entertainment from your phone, tablet or laptop to the TV. While you’ re streaming, you can keep using your phone for other things- scroll through social media, send a text, and even accept calls.
